In re Application of
Shunsuke KAKISHIDA, et al.

Application No.: 10/598,006
Filed: 08/15/2006
Attorney Docket No.: 10873.1935USWO

: DECISION ON REQUEST TO
: PARTICIPATE IN THE PATENT
: PROSECUTION HIGHWAY
: PILOT PROGRAM AND PETITION
: TO MAKE SPECIAL UNDER
: 37 CFR 1.102(d)

For: METAL HALIDE LAMP AND
LIGHTING APPARATUS USING THE
SAME

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed June 5, 2008, to make the above-identified application special.

The request and petition are **DISMISSED**.

Discussion

A grantable request to participate in the PPH pilot program and petition to make special require:

1. The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO, note where the JPO application with similar claims is not the same application from which the U.S. application claims priority that the applicant must identify the relationship between the JPO application with similar claims and the JPO priority application;
2. Applicant must submit a copy of:
 - a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
 - b. An English translation of the allowable/patentable claim(s) and
 - c. A statement that the English translation is accurate;
3. Applicant must
 - a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
 - b. Submit a claims correspondence table in English;

4. Examination of the U.S. application has not begun;
5. Applicant must submit:
 - a. Documentation of prior office action:
 - i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
 - ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then a copy of the Notification of Reasons for Refusal or
 - iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
 - b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above
 - c. A statement that the English translation is accurate;
6. Applicant must submit:
 - a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
 - b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);
7. The required petition fee under 37 CFR 1.17(h).

Conditions (2) to (7) above are considered to have been met. However, the request to participate in the PPH pilot program and petition fails meet condition (1) above.

Regarding the requirement of condition (1), the instant application is filed under 35 USC 111(a), which validly claims priority under 35 USC 371 to a PCT application (PCT/JP 2005/10268), which PCT application validly claims priority under 35 USC 365(b) to one or more applications filed in the JPO (JP 2004-190698). However, the since the JP national application containing the allowable/patentable claims (JP 2006-519583) is a JP application other than the priority application, applicant must indicate how the JP national application with the allowable/patentable claims is related to the JP priority application. See "Revised Requirements for Requesting Participation in the Patent Prosecution Highway pilot Program in the USPTO," dated May 17, 2007, next to last paragraph.

A proper response in this case must include:

- (a) an explanation how the JP national application (JP 2006-519583) with the allowable/patentable claims is related to the JP priority application (JP 2004-190698).

CONCLUSION

For the above reasons, the "Request for Participation in the Patent Prosecution Highway (PPH) Program Between the JPO and the USPTO" filed June 5, 2008 is **DISMISSED** without prejudice.

Applicant is given a time period of **ONE MONTH or THIRTY DAYS**, whichever is longer, from the mailing date of this decision to correct the deficiencies. **NO EXTENSION OF TIME UNDER 37 CFR 1.136 IS PERMITTED.** If the deficiencies are not corrected with the time period given, the application will await action in its regular turn.

Response must be filed via the Electronic Filing System (EFS) with the Document Code PPH.PET.652 .

Telephone inquiries concerning this decision should be directed to Michael Day at 571-272-1568.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at <http://www.uspto.gov/ebc.index.html>.
